PARTICIPANT LETTER OF INVITATION

Study title: Alzheimer's Biomarkers Consortium - Down Syndrome (ABC-DS)
29 March 2023 (Version 1.2)

Dear potential participant,

We would like to invite you to take part in a research study investigating Alzheimer's Disease and aging in people with Down's Syndrome.

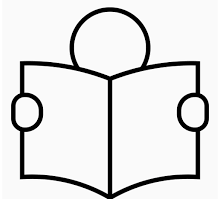

We have sent you some information with this letter so you can understand what the research is about.

What will happen if I want to know more?

1. Will we send you an information sheet that includes all the details about the study.
2. After understanding the good things and the bad things about taking part, you can decide if you would like to be a participant.
